

Protect Yourself from Email Fraud

How to Enable YAHOO! 2-Step Verification

- Log into your Yahoo account.
- Click the "Hi (your name)" in the top right-hand corner and then click "Account Info."
- On the left hand side, click on "Account Security."
- At the bottom of the security page you will see "Two-Step verification." To the right, you will see a slider button.
- Slide it to the right to turn on.
- You will be prompted to enter your cell phone number.
- Click "Send SMS" to receive the verification code.

- Enter this verification code on your computer or device, then press "Verify."

- Congratulations! Your Two-Step verification has been enabled.
