TITLEONE ANNOUNCES COMPLIANCE WITH SSAE 16 (SOC1) STANDARDS

Certification Validates Company's Commitment to Security, Privacy and Confidentiality.

Boise—TitleOne, a locally owned title and escrow company based in Idaho, today announced that it has successfully completed an independent audit for Statement on Standards for Attestation Engagements (SSAE) No. 16. Previously called SAS 70, SSAE 16 is a widely recognized auditing standard developed by the American Institute of Certified Public Accountants (AICPA). SSAE 16 verifies that a company has been through an in-depth audit of its control objectives and activities to ensure the safety and security of its customer data. Specific objectives of this audit address availability, customer support, change management, database security, data backup, systems availability, monitoring of network security and Logical Access Network (LAN).

"Voluntarily completing the audit for SSAE 16 requirements reflects our continued commitment to excellence in operations," said Mark Tidd, President for TitleOne. "This reinforces to our customers that we have the highest standards of processes, controls and procedures in place ensuring security and privacy of their confidential data."

ABOUT TITLEONE

TitleOne was founded in 2000 by a small group of entrepreneurs who wanted to build a "different" kind of title company with unique benefits for both customers and team members. Since then, TitleOne has grown to become Idaho's choice for title and escrow services, in the Ada, Canyon, Boise, Bonneville, Butte, Jefferson and Kootenai County markets with seven locations and more than 100 employees caring for customers every day.
